

1. The reason your group chose the topic.

The reason our group chose to focus on plastic pollution is that plastic pollution is a common issue that affects both the environment and people's daily lives, especially in our community in the Philippines. It allows us to be able to spread awareness and encourage how we, the community, can put a stop to plastic pollution or at least reduce plastic pollution, in order to protect and reduce the big impact that plastic pollution usually leaves behind on the Earth and its environment.

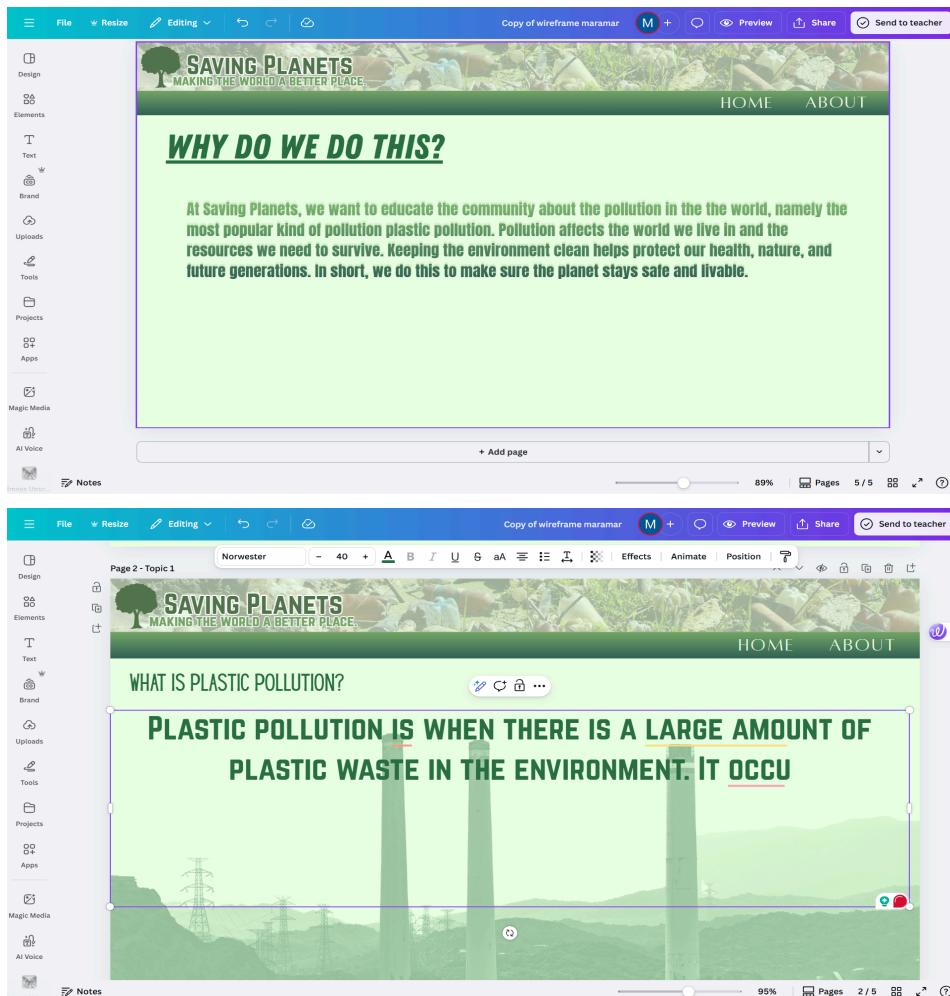

2. The individual contributions of each group member

Buranday: Coding - Topic1 Page, Topic2 Page, Topic3 Page

Azarcon: Coding - Home Page, About Page

Magnaye: Wireframes

3. Screenshots/photos while doing the project.

Screenshot of a web editor interface showing a design workspace and an HTML code editor.

The top navigation bar includes: File, Resize, Editing, NORWESTER, Preview, Share, and Send to teacher.

The left sidebar contains:

- Design: leaf frame
- Elements: Graphics (selected), Color, Orientation
- T Text
- Brand
- Uploads
- Tools
- Projects
- Apps
- Magic Media
- AI Voice
- Image Upse...

The main workspace shows a banner titled "SAVING PLANETS" with the subtitle "MAKING THE WORLD A BETTER PLACE." Below the banner is a large green rectangular area.

The bottom section is the HTML code editor:

```

SAVING PLANETS
MAKING THE WORLD A BETTER PLACE.

WHAT IS PLASTIC POLLUTION?

Plastic pollution is when there is a large amount of plastic waste in the environment. It occurs when plastic products are discarded or break down slowly, causing them to build up over time.

SAVING PLANETS
MAKING THE WORLD A BETTER PLACE.

WHAT CAN YOU DO ABOUT POLLUTION??

You can help reduce pollution by using fewer disposable items and recycling whenever possible. Choosing reusable bags, bottles, and containers also cuts down on waste. Participating in clean-ups and throwing trash in proper bins keeps the environment cleaner.

slr, kani pa akong na code so far
